

WILL YOUR PROJECT WIN THE 2019 IMPACT AWARD?

Our world can't live without green solutions.
The Dutch green sector is a frontrunner.

Thanks to you!

As a student within green education, you think of creative solutions and you make the difference with beautiful projects. You can think of, for example:

Food waste

Sustainability

Circular agriculture

Greening the cities

Climate change

Biodiversity

impact award
green education
2019

Participate in the 2019 Impact Award for green education.

WHICH PROJECTS

Last year, you did a project, together with others and in collaboration with a company or institute, with an impact on food, climate and/or liveability. Not just large but especially small projects that show how important our sector is, can enter the competition for the award.

WIN

There are four categories: vmbo green, mbo green, hbo green and university green education. Per category, one project team wins a price at a value of € 2,500. The price is awarded on February 13, during a special event for students at HAS Highschool in Den Bosch.

PARTICIPATION

Go to the website and fill in the **application form** with your project before November 15th. On the **website** you'll also find more information about the procedure, the conditions and the assessment criteria.

The Impact Award for green education is an initiative by Groenpact
